

About the Pasadena Reintegration and Enforcement Program (P.R.E.P)

The Pasadena Police Department, in partnership with other local and State agencies, has made a commitment to assist with the reintegration, monitoring and enforcement of those individuals returning to the City of Pasadena. The goal of P.R.E.P. is to provide information and resources that will enable recently released individuals to reintegrate with society. By Officers attending monthly meetings, conducting home visits and providing valuable resources; this program hopes to promote a healthy lifestyle and deter recidivism.

The resources provided in this brochure can be used to seek employment, contact counselors or law enforcement officials. This is only a brief list of resources available and there are programs for virtually every obstacle that one may encounter. It is ultimately up to the individual to seek that information and apply it to their life. To obtain a complete list of resources available and find out what is best for you; contact Marc Franco at the Flintridge Center. His contact information is provided in this handout.
